DEFINITIONS

MEDICAID

Medicaid is the federal health insurance program that provides coverage to low-income individuals who meet eligibility criteria. Individuals who are Michigan residents and meet the citizenship, income and asset requirements may be eligible for straight Medicaid, which is Medicaid coverage without a Health Maintenance Organization (HMO) plan. An HMO is typically used to expand Medicaid coverage.

MEDICAID HMO

HMO stands for Health Maintenance Organization. With a Medicaid HMO plan, individuals must choose a Primary Care Physician (PCP) from a network of local healthcare providers who will refer the enrollee to in-network specialists or hospitals, when necessary. All care is coordinated through that PCP.

HEALTHY MICHIGAN PLAN

Michigan health care program that provides health care benefits to low income residents under the State of Michigan's Medicaid Expansion Program. The Healthy Michigan Plan encourages healthy behaviors and personal responsibility, helps low-income Michigan residents access affordable health coverage, and reduces uncompensated care that shifts costs onto businesses and taxpayers.

HOW DO I APPLY?

● **Healthy Michigan/Medicaid:**

Online: www.michigan.gov/mibridges

Phone: 855.789.5610

With our two state-of-the-art mobile dental units, we provide dental exams, fluoride treatments and sealants to Head Start Programs and elementary school students that may otherwise receive no dental care. Follow up care is referred to HDI dental sites to form a permanent dental home. These mobile units are used in the summer to travel throughout Lower Michigan to migrant farm-worker camps in order to provide dental care to the migrant and seasonal farm-workers and their families.</p>

Dental Benefits for Veterans

Dental benefits are provided by the Department of Veterans Affairs (VA) according to law. In some instances, VA is authorized to provide extensive dental care, while in other cases treatment may be limited. This Fact Sheet describes dental eligibility criteria and contains information to assist Veterans in understanding their eligibility for VA dental care.

Outpatient Dental Program

The eligibility for outpatient dental care is not the same as for most other VA medical benefits and is categorized into classes. If you are eligible for VA dental care under Class I, IIA, IIC, or IV you are eligible for any necessary dental care to maintain or restore oral health and masticatory function, including repeat care. Other classes have time and/or service limitations.

If you:	You are eligible for:	Through
Have a service-connected compensable dental disability or condition.	Any needed dental care	Class I
Are a former prisoner of war.	Any needed dental care.	Class IIC
Have service-connected disabilities rated 100% disabling, or are unemployable and paid at the 100% rate due to service-connected conditions.	Any needed dental care. [Please note: Veterans paid at the 100% rate based on a temporary rating, such as extended hospitalization for a service-connected disability, convalescence or pre-stabilization are not eligible for comprehensive outpatient dental services based on this temporary rating].	Class IV
Apply for dental care within 180 days of discharge or release (under conditions other than dishonorable) from a period of active duty of 90 days or more during the Persian Gulf War era.	One-time dental care if your DD214 certificate of discharge does not indicate that a complete dental examination and all appropriate dental treatment had been rendered prior to discharge.*	Class II

If you:	You are eligible for:	Through
Have a service-connected non-compensable dental condition or disability resulting from combat wounds or service trauma.	Any dental care necessary to provide and maintain a functioning dentition. A Dental Trauma Rating (VA Form 10-564-D) or VA Regional Office Rating Decision letter (VA Form 10-7131) identify the tooth/teeth/condition(s) that are trauma rated.	Class IIA
Have a dental condition clinically determined by VA to be associated with and aggravating a service-connected medical condition.	Dental care to treat the oral conditions that are determined by a VA dental professional to have a direct and material detrimental effect to your service connected medical condition.	Class III
Are actively engaged in a 38 USC Chapter 31 vocational rehabilitation program.	Dental care to the extent necessary as determined by a VA dental professional to: <ul style="list-style-type: none"> • Make possible your entrance into a rehabilitation program • Achieve the goals of your vocational rehabilitation program • Prevent interruption of your rehabilitation program • Hasten the return to a rehabilitation program if you are in interrupted or leave status • Hasten the return to a rehabilitation program of a Veteran placed in discontinued status because of illness, injury or a dental condition, or • Secure and adjust to employment during the period 	Class V
Are receiving VA care or are scheduled for inpatient care and require dental care for a condition complicating a medical condition currently under treatment.	Dental care to treat the oral conditions that are determined by a VA dental professional to complicate your medical condition currently under treatment.	Class VI
Are an enrolled Veteran who may be homeless and receiving care under VHA Directive 2007-039.	A one-time course of dental care that is determined medically necessary to relieve pain, assist you to gain employment, or treat moderate, severe, or complicated and severe gingival and periodontal conditions.	Class IIB

** Note: Public Law 83 enacted June 16, 1955, amended Veterans' eligibility for outpatient dental services. As a result, any Veteran who received a dental award letter from VBA dated before 1955 in which VBA determined the dental conditions to be non-compensable are no longer eligible for Class II outpatient dental treatment.*

Dental and Veterans Access, Choice and Accountability Act (Veterans Choice Program)

Fact Sheet

As part of the Veterans Access, Choice and Accountability Act (VACAA), the Veterans Choice Program has been implemented and will operate for 3 years or until the Fund is exhausted. The Veterans Choice Program provides Veterans who were enrolled as of August 1, 2014 or eligible to enroll as a recently discharged combat Veteran with a Veterans Choice Card, and allows Veterans who are unable to schedule an appointment within 30 days of their preferred date or the clinically appropriate date, or on the basis of their place of residence to elect to receive care from eligible non-VA health care entities or providers. Although dental care is a covered benefit under the Veterans Choice Program for Veterans who meet dental eligibility requirements, the Choice Program's Third Party Administrators (TPAs) do not provide dental referrals; therefore, VA Medical Centers (VAMCs) should follow the procedures set in place for the Non-VA Dental Program.

The Non-VA Dental Program provides pre-authorized treatment to eligible Veterans when VAMCs are not capable of providing care due to geographical inaccessibility or when the needed care is not available at a VAMC. Detailed information about the Non-VA Dental Program can be found on the NNPO Dental Procedure Guide located on the National Non-VA Medical Care Program Office (NNPO) internet site. As a Veteran's scope of services authorized is determined by their specific dental eligibility classification, facilities must enter the correct Fee Purpose of Visit code based on the Veteran's dental eligibility classification when obligating care.

The following are FAQs regarding non-VA dental care and the Veterans Choice Program:

Question: What happens if a Veteran calls the TPAs regarding dental care?

Answer: The TPAs have been advised to refer Veterans requesting dental care through Choice to contact the Business Office at their local VAMC for non-VA dental eligibility.

Question: How does the local Dental Service know if the Veteran qualifies for care under the 40+ mile rule? And if they do, will it be the Business Office or Dental Service at their local VAMC to refer them to a local provider of their choice?

Answer: The local Dental Service should coordinate with their local Choice Champions. All Choice Champions are authorized access to a site that contains a listing of all eligible Veterans under the “40 mile” criteria. If a Veteran is eligible under the “40 mile” criteria and meets dental eligibility requirements, the local VAMC Business Office will refer Veterans to a local provider of their choice using regular non-VA medical care procedures outlined in the NNPO Dental Procedure Guide.

Question: Should dental patients falling under the 30+ day eligibility still be entered on the Veteran Choice List (VCL)?

Answer: Eligible Veterans seeking dental care should NOT be entered on the VCL. Instead, the Business Office will refer the Veteran to their local VA Dental Service. If the local Dental Service cannot provide the care within 30 days of the clinically indicated date, then the Veteran should be referred to the community using regular non-VA medical care procedures outlined in the NNPO Dental Procedure Guide.

Question: In most states, less than 5% of dentists are Medicare qualified and this effectively eliminates the majority of dentist to provide care under the Choice Program. Can a Veteran choose any licensed dental provider in their community that accepts the VA’s reimbursement?

Answer: Yes. Due to the fact most dental providers do not meet the specific provider credentialing outlined under the Choice Program, a Veteran can choose any licensed dental provider in their community that accepts the VA’s reimbursement. All existing procedures as outlined in the NNPO Dental Procedure Guide must be followed.

Question: How will non-VA dental care be funded?

Answer: Non-VA dental care will be paid by regular non-VA Medical Care funds that are centrally managed and funded by the Chief Business Office (CBO). This includes funds that were previously allocated for homeless Veteran dental care and are now in a specific account within the CBO.

Question: Do sites have to pay Medicare rates for VACAA dental care?

Answer: Although VACAA states that payments will be at Medicare rates, Medicare rates do not exist for many dental procedures and many dental market locales require payment at rates higher than Medicare rates or the Fair Health 50th percentile rate; therefore, VA VAMCs should continue to use the variance approval process as outlined on Page 7 of the NNPO Dental Procedure Guide.

Community Dental Care

(available Non-VA Dental Care)

The dentists and dental clinics listed below may have reduced rates for Veterans seeking dental care with them. Each facility would need to be contacted to see if you might qualify for dental care at a reduced rate.

VA Dental Insurance Program (VADIP)

Dept. of Veterans Affairs is implementing a comprehensive national VA Dental Insurance Program (VADIP) to give enrolled Veterans and CHAMPVA beneficiaries the opportunity to purchase dental insurance through Delta Dental and MetLife at a reduced cost. Participation is voluntary and will not affect a Veteran's eligibility for VA dental services and treatment (if Veteran is eligible). Eligible individuals can apply for coverage beginning November 15, 2013; coverage will begin January 1, 2014. See the following web site for more information. <http://www.va.gov/healthBenefits/vadip> or call 1-877-222-VETS (8387)

Michigan Donated Dental Services (DDS)

Dental Lifeline Network-Michigan; requires application-eligibility based on permanent disability, elderly or medically at risk and lack adequate income to pay for needed dental care. While there is generally no cost to qualifying individuals, people in a position to pay may be encouraged to do so, particularly if dental laboratory work is needed. If qualified for Medicaid, you will be asked to utilize this resource before using DDS.

Please note: This list is offered as a service to our Veterans who are not eligible for dental care within the VA system. The VA does not recommend one facility over another, has no financial or other arrangements with any of these facilities, has not performed any review of the facilities or dentists, does not warrant any care that may be provided and will not be responsible for any fees charged by these facilities.

Key Ingredients in Preventing Tooth Decay and Maintaining a Healthy Mouth:

Babies

Most doctors believe:

- Real smiles occur when babies are awake at the age of four-to-six weeks.
- Babies start smiling in their sleep as soon as they're born.

Children

Over 19% of children ages 2-19 have untreated cavities

- Do not share spoons, forks, or cups
- Visit your dentist regularly
- Brush twice per day with an ADA-accepted fluoride toothpaste
- Clean between the teeth daily with floss
- Eat a balanced diet and limit snacks (especially raisins and fruit rollups)
- Take children to a dentist when the first tooth appears and no later than their first birthday
- Brush children's teeth as soon as they begin to come into the mouth by using fluoride toothpaste in an amount no more than a smear or the size of a grain of rice, twice per day (morning and night) or as directed by a dentist or physician
- Until you're comfortable that your child can brush properly on their own, (3-6 yrs.) brush your child's teeth twice a day with a child-size toothbrush and a pea-sized amount of fluoride toothpaste. When your child has two teeth that touch, you should begin flossing their teeth daily.
- Get sealants (plastic coatings that prevent tooth decay) to protect permanent molars

Teens

- Avoid sugary and starchy snacks
- Wear a mouth guard when you're active
- Don't smoke
- Don't pierce your lips or any part of your mouth
- Regular dental visits set you up to be Mouth Healthy for Life
- Brush twice per day with an ADA-accepted fluoride toothpaste.
- Clean between the teeth daily with floss

Adults

- Gum Disease is the leading cause of Tooth Loss in ADULTS
- Don't smoke
- Regular dental visits set you up to be Mouth Healthy for Life
- Visit your dentist regularly
- Brush twice per day with an ADA-accepted fluoride toothpaste
- Clean between the teeth daily with floss

Practicing Proper Dental Care:

- Shortens time with the dentist and dental hygienist
- Prevents tooth decay
- Prevents gum disease
- Saves money
- Helps prevent bad breath
- Helps keep teeth white
- Improves overall health
- Makes it possible for your teeth to last a lifetime
